

Career Education at GW Graham Secondary School

Supporting students with understanding their personal strengths and connecting them to opportunities beyond high school is extremely valued at GW Graham Secondary School. Career Education is taught in all grades at GW Graham. Students utilize the MyBluePrint platform for creating a digital portfolio that can be accessed throughout high school and after graduation. MyBluePrint is also used for course planning and career exploration. Career Education is taught during tutorial time at GW Graham although there are many opportunities for learning beyond the tutorial time such as various guest presentations, the Choose BC career fair, course planning sessions with counsellors, and other career related learning experiences. These will be captured in students' MyBluePrint portfolio.

All students are required to complete the following courses for graduation:

- Career Life Education
- Career Life Connections
- Capstone Project

Below are the “Big Ideas” for Career Life Education:

Below are the “Big Ideas” for Career Life Connections:

The Capstone Project will include components such as the following:

Proposal:	The proposal outlines the project and includes disciplinary and core competency connections, timelines, and product.
Mentor:	The mentor is ideally a shared role that includes teachers and/or community members that provide guidance throughout the culminating project.
Research:	The research is an essential component that informs each student's culminating project.
Product:	The product is the end result of the project (e.g., video, document, performance, something constructed).
Presentation:	The presentation can have a variety of forms and happens with an audience composed of teachers, community members and/or others connected to the student and/or their culminating project.
