

You can help a Chilliwack student launch their post-secondary education with a Bursary or Scholarship!

The Chilliwack School District Financial Awards Program helps you directly impact the life of a local student. An Education Award is a financial gift to a graduating student. The award helps the student pay for post-secondary education.

The community of Chilliwack has a long history of supporting SD 33 graduates with financial awards - service groups, businesses and individuals, all working to help the youth of Chilliwack reach their post-secondary goals.

- Financial awards range in value from \$250 - \$2500
- Award criteria are determined by the donor
- Donors receive a charitable donation receipt

If your business, organization, or family is ready to offer financial support to a graduating Chilliwack student, we will help you design an award that reflects your interests and values.
